

Accessing MSD IT network file-stores using macOS

You can only access MSD IT file stores when connected to an Oxford University network, the MSD IT VPN service or the Oxford VPN service.

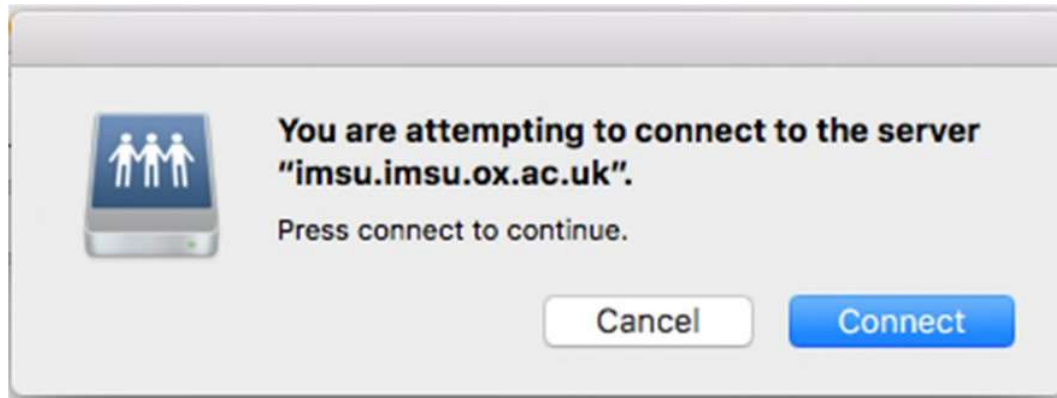

1. Connect to the MSD Network via the Finder Go menu:

2. Enter your departmental server address, in most cases this will be the usual Oxford short-form. If in doubt, please contact our Service Desk:

This will be smb://surgery.imsu.ox.ac.uk

3. You will be asked to confirm the connection request: 4. Enter your MSDIT

network user name and password (example jsmith):

Enter your name and password for the server
"imsu.imsu.ox.ac.uk".

Connect As: Guest

Registered User

Remember this password in my keychain

Cancel

Connect

5. Select the file-store you want to access:

Scroll towards the bottom the file stores you require are

Surgery and SurgeryHome

Surgery will contain group folders that you have access to and Surgery Home will be your home directory.
