

Oxford Centre for Advanced Pre-Clinical Imaging (OCAPI)

We are pleased to introduce the Oxford Centre for Advanced Pre-Clinical Imaging ([OCAPI](#)), now open and offering a comprehensive range of pre-clinical imaging services.

Located in the Radiobiology Research Institute at the Churchill hospital, our facility provides access to state-of-the-art equipment and expert support for your imaging experiments

Our imaging capabilities include: **MRI (including hyperpolarized ^{13}C MRI)**, CT, PET/SPECT, Ultrasound, IVIS (optical Imaging)

By integrating imaging into your study design, you can refine experimental protocols and reduce the number of animals required, directly contributing to the 3R principles of animal research

- We provide competitive rates , flexible scheduling and scientific guidance tailored to your study needs, and full support throughout your project
- Additionally, we offer assistance for **grant applications** and **study plan development**, helping you to effectively incorporate imaging into your research proposals.

If you'd like to learn more or discuss how we can assist with your upcoming studies, please don't hesitate to get in touch - preclinicalimaging@bms.ox.ac.uk
